Hi Matt - The Buffalo Ridge Landfill continues to be acceptable under the CERCLA Off-Site Rule. The the VCA:

The OSR acceptability status is dynamic in nature and subject to change, Region 8 has instituted a policy where we conduct a verification of continued acceptability(VCA) on facilities that have been previously found acceptable under the CERCLA Off-site Rule (OSR). The purpose of a VCA is to provide a periodic check to assure that the facility continues to be acceptable. VCAs are conducted when a request for OSR status is received and the previous VCA had been conducted more than 60 days prior. VCA are valid for 60-days.

A VCA was completed on the Buffalo Ridge Solid Waste facility on February 12, 2013, so the VCA is valid until April 12, 2013. VCA are valid for 60-days. CERCLA waste shipments sent to the Buffalo Ridge facility up until April 12th are in full compliance with the OSR. If CERCLA wastes are planned to be sent after this date, please contact me about a week or so prior to April 12th, so that a new VCA can be conducted at that time. Thanks.

Terry J. Brown

Subject: OSR Check - Waste Management Buffalo Ridge

---

Terry  
ERLLC is continuing to utilize Waste Management's Buffalo Ridge facility in Keenesburg CO for asbestos waste from the R8 Eaton Sugar Beet factory project. Do they remain an approved CERCLA facility?  
Thanks  
Matt
